PRESS RELEASE

Brussels, 25 April 2013

Statement CLEPA CEO Jean-Marc Gales on EP ENVI CO2 Vote

"We welcome the vote of the EP ENVI Committee on the revision of the 2020 targets for reducing CO2 emissions from passenger cars. I believe that the 95 g/km and 147 g/km targets are the best compromise between costs and CO2 emission reductions and that they will help keep the competitive advantage that the European automotive industry has in terms of CO2 emission reduction. The retention of super credits and ecoinnovation for low emission vehicles will also boost the development of breakthrough technologies." said Mr Jean Marc Gales, CLEPA CEO.

Note to Editors

CLEPA is the European Association of Automotive Suppliers.

104 of the world's most prominent suppliers for car parts, systems and modules and 25 National trade associations and European sector associations are members of CLEPA, representing more than 3 thousand companies, employing more than 5 million people and covering all products and services within the automotive supply chain. Based in Brussels, CLEPA is recognized as the natural discussion partner by the European Institutions, United Nations and fellow associations (ACEA, JAMA, MEMA, etc).
